

## Press Release

### Easy-Trim Roofing and Construction Products Ltd continue on their path of growth with a new Acquisition

Easy-Trim Roofing and Construction Products Limited are pleased to announce that they have acquired the UK trading business of Roto Roof Windows. Effective from the 1st of December 2017, a new trading division of Easy-Trim will be operational, namely Easy-Trim Roto. The business will retain its sales office and training Centre in Rugby while enhancing stock holding and distribution capabilities by moving this function to its Lancashire distribution centre.

The acquisition does not include or effect the Roto Hardware business (FTT), its staff or indeed the standard operating procedures when trading with this element of the UK business.

Easy-Trim Roto will continue to utilise manufacturing facilities in Germany, while preparing and developing its own, UK based manufacturing plant, in partnership with Roto, with an anticipated launch in 2020.

Easy-Trim Managing Director, Jamie Govier comments "We are delighted with this development, Roto manufacture Roof Windows to the highest standard and in our opinion are market leading in quality, support and warranty. The business fits exceptionally well with our existing platform and sales channels. With significant investment during this year in our extrusion capacity, the road to UK manufacture makes perfect sense also. I personally welcome both new customers and colleagues alike and look forward to developing this range during 2018."

All the existing range of products are immediately available and a new range of Easy-Trim Roto windows will be launched in March of next year.

Easy-Trim would like to thank customers for their brand loyalty over the years and assure all that the service, quality and attention to detail will not just continue, but improve.

Whilst your existing Easy-Trim ASM will be able to support your needs and process orders, I confirm the following points of contact also:-
